When I was a youngster  
Playing house was all the rage  
And I always played the mommy  
And they all thought it was just a stage  
But as I grew older  
Still I wished to be a lady  
Not so I could have a man  
But so I could have a baby!  
Chorus:  
Womb envy  
I know it's kinda strange  
Womb envy  
But please let me explain  
Womb envy  
I know it's kinda crazy  
I got womb envy  
I wanna have a baby  
Now I like my equipment  
I wouldn't trade it for the world  
But I might trade it for nine months  
If I could only be a girl  
I don't wanna wear a dress  
Or be somebody's wife  
I just wanna have a chance  
To feel the miracle of life!  
(Chorus)  
I'd do it naturally  
No Playtex formulas for me  
I'd study LaMaze and read Dr. Spock  
If I could just be blessed with pregnancy  
Well maybe someday science  
Will make it a reality  
If it's been done in test tubes  
Then why not inside of me?  
I'm every bit as loving  
And gentle as can be  
Lord, give me a chance to prove  
My maternity!  
(Chorus)
