If the world came tumbling down
I would always be around
you can count on me
all I wanna do is give my love to you

I was in your corner totally
you know that you can come to me
if there is anything you'll ever need
my arms are open wide
I'll wipe your tears every time you cry

You say you trust me with everything
but yet when times get rough for you
you simply turn around and run away
never giving me the chance
to show what I can do for you
how can I get through to you girl

If the world came tumbling down
If your blue skies turn to grey
I will always be around
you can count on me
all I wanna do is give my love to you

Tell me baby what's it gonna take
for you to give yourself to me
to share the joy and pain that you feel
you know you can talk to me
cause that's the way it's supposed to be

Loving you shouldn't be this hard
All we have to do is tear down the wall
That's keeping us apart
And when the storm comes
I'll be there to guide you through it all
Only then can our love carry on

If the world came tumbling down
If your blue skies turn to grey
I will always be around
you can count on me

all I wanna do is give my love to you

I will always be there in your dark and lonely nights
But you'll never see me if you don't open your eyes
I'm standing here in front of you, why oh why
Won't you come to me cause
I will set you free

If the world came tumbling down
If your blue skies turn to grey
I will always be around
you can count on me
all I wanna do is give my love to you
