I was told what you become is the price
you pay, I do this for New Orleans
(To all my fans, I know I've
been gone[I am No Limit] but it was all for the better)

Aye pops I told you I got the tank on my back
big homie, now that you pass the troch, it's
never gonna go

To my non-believer, I'm always
ready to go to work, what about you,
I'm the star of my team, I'll never be sold
like I said, I AM NO LIMIT, (chea) and I'm
back

Heyy this is the next generation
, mic check one two, one two...I'm
recording this live, I don't need no boo,
what you heard me say gangster don't go to school
and I'm doing just fine I don't need no crew

John Wall my finger cause I know I'm the one
gotta family fill with killers, I ani't holdin a gun
call the popo because I'm beast out. I make them
good girls, brake the freak out, and to the haters
you get no aretha, yes I'm bout to change the game
the game...middle finger you can suck my aretha
if you don't feel the same the same

Hold up, pops told me to let loose
so I'm bout to kill these niggas like
I'm Sham-moose..I will not lose

I'm just a nigga from the street, with
a little money, when you make
it up, they say you act funny
I got a big house, I guess I ain't
keep it real, the same hood I
love got my lil cousin killed

Mama told me to watch my
back..I got a lil thing, my

bodyguard do that...my pops
said take the game over
Drake not the only one that knows
the game over

It's funny how the game change
girls take their arm, just to have my
last name

And I'm followed with all the Twitter
campaign..Don't drink but I'd
take a sip of Sham-Pain

I rarely ever celebrate, cause
every part, that brings another
new faith, I ain't talkin bout'
ID, pave through Jesus to
walk around in these jeans

I see me and my lil brothers
and NO LIMIT is good, this
is the next generation
you can run homie, Im pacing
All black no mason, and watcha
see is a mask but no chasin

I'm in New York just to get
away, to my fans, let the haters
hate, let the haters hate

I do this for New Orleans.
I'm on the road like everyday
cause I am NO LIMIT

Just rep yo hood
