I thought we'd be together  
Always forever in love  
There was never a doubt  
But it don't take a genius  
To see what was between us is gone  
Though you keep saying nothing is wrong  
You can no longer conceal the truth  
I know I'm losing you 'cause  
When you put your lips to mine  
They cannot tell a lie  
They say it won't be long now  
If your kiss can be believed  
I guess you're leaving me  
And it'll be just a matter of time  
Well I've tried to deny it  
But I missed the light in your eyes  
That once shined for me  
And it's sad but it's true now  
Somewhere inside me I knew  
What even a blind man could see  
That there's another you're dreaming of  
And you don't want my love, baby  
When you put your lips to mine  
They cannot tell a lie  
They say it won't be long now  
If your kiss can be believed  
I guess you're leaving me  
And it'll be just a matter of time  
Oh, my heart is broken in two  
But I want you to know that my arms  
Will always be open for you  
When you put your lips to mine  
They cannot tell a lie  
They say it won't be long now  
If your kiss can be believed  
I guess you're leaving me  
And it'll be just a matter of time
