If there is anything good out there
We believe
If there is hope in the heat of despair
We believe
If honesty opens an eye to the truth
Wake up the world
And welcome the truth

Chorus:

We believe in one name under heaven
Where all things are given by faith love and hope
We believe
We believe in obedience ringing
Te bell of the free
We believe
And well live
What we know

If there is innocence undefined
We believe
If there a chance to retreat from the wild
We believe
If virtue is one thing you wont be without
We fight with the faithful
Well sing and well shout

Repeat Chorus (2x)
