[Verse 1]

Ayo ya ain't gotta worry
Harlem world man I got this
Hit the studio spit nothing but the hotness
Hit the club up and your girl is on my list
Got the goons with me so ya don't wanna try this
V.I.P. and everybody ballin'
Having fun and nobody is brawling
Shawty come here I don't know why you stallin'
We gone party 'til it's the morning
The morning

[Chorus]

I'm jumping out the window with this one
Jumping out the window with this one
Jumping out the window with this one
Jumping out the window

[Verse 2]

I don't wanna yell so mami come closer
Imma take you home outside I got the Rover
See it in your eyes you mad when I hold her
Hate in your blood you must be bipolar
I ain't never seen nobody like that
She gave me a kiss and said she'll be back
My leather is clean my Gucci's all black

None of ya dudes in here is no match
No Match

Get your passport ma we about to take trip
You can shop when you land all luggage in the whip
