(Verse)

I ain't talking Kanye West when I say I'm playing with
your clique
I'm talking about that spot right there when you touch it
it make you sick
Beat that right it will make you trip , beat that right and
you say that's sick
Kick your friends out your house to get that dick, get
that dick
Her best friend name is Shawna , called my dick
Lebama
I'm swimming all up in that , I eat that iguana
Used to be up on that counter , serving that Madonna
I know I killed that pussy used to lock me up your honor
My handprints on that backside gave a dose of that
egg right
Nigga said it's his girl you be dead if you act loud
Add all and the trap gods right there where the mac
lies
Pussy wet, baphtized, all I see is green like cat eyes
Think her name is China keep her in designer
She turn around make a mean face every time a nigga
behind her
Her boyfriend can't find her she like it rough, kinda
I wax is as I clean it up I wipe it down I pound her

They say Ron you back smoking
I say nah I'm back talking
I ain't talking about a pool when I say I'm backstroking
Shawty name her dog so you know she keep it open
I put all my kids on her face she treat 'em just like lotion
She cooperate, she cooperate with an ass like a
stripper
She wanna feel good so I smack that ass and tip her
I trip her, I trip her your mommy is a dripper
Ain't talking about a picture
If you niggas feel I flick her
Champagne and them bad hoes , this how life should
feel
I be all on her stomach , AKA a good meal
Been around the world and I done made a good mil
Put my kids on the fence too y'all could call like good
will
Beat it up, beat it up in the air
No love stunt today 90 run across the cat
And you ain't gotta act 'cause I'm probably in 'em
She doin real nasty with that molly in her
