I ran across your picture up on facebook
 I couldn't help but smile and wanna see you
 I wish we didn't have to be so far away
 Far away—3

A text from you
 Always makes me happy
 And so does your name
 On my caller id
 There's something magical
 I feel between us
 Magical—3

When you get lonely
 Don't you worry
 It's okay
 Cuz I'll be here

When we're apart
 We use telepathy
 But when we both have time
 We talk like crazy
 It's not enough just to hear your voice
 I'm
 Missing you—3

When I get lonely
Won't you call me
Say "it's okay
nothing to fear"
