I sit here
And wait for you to find me
I know that
It surely fall into place
I have been
Searching long for that one
When I find you
Trust me I will know

I know he will save me
From this awful place
All on my own
Can't be alone
There's gotta be another way
And I've got to find him
Maybe he just might
Find me tonight
Find me tonight
He probly is on his way

And when I look into your eyes
I will fall into your arms
And know that
We were always meant to be
And when you look into my eyes
You'll forget everything
And say that
You will always be with me.

I know that
You are probly dreaming like me
And I hope that
You might be thinking the same thing
There's that chance
that I will never find you

Then again,
who ever is gonna think that way

And when I look into your eyes
I will fall into your arms
And know that
We were always meant to be
And when you look into my eyes
You'll forget everything
And say that
You will always be with me.
I don't wanna wait no more
I don't wanna be alone
And I want someone to hold me
And I won't give up on hope
But I want someone to be with
And maybe someday
You will find me.

And when I look into your eyes
I will fall into your arms
And know that
We were always meant to be
And when you look into my eyes
You'll forget everything
And say that
You will always be with me.
