I'm always looking out my window
Wonderin' if you're ever coming back
I used to think that we had everything
But somehow somewhere we got off the track

And even though you're gone
You know my love still carries on
And I'm sending out a message to the stars

Wherever you are tonight
You can look up into the sky
And see we're under the same moonlight
And I love you

Whoever is holding you
Well I hope that her aim is true
'Cause after all that we've been through
I still love you
Baby I still love you

It's taken time to get my head straight
I'm nothing like the girl I used to be
You showed me more than I could ever learn
You know you'll always be a part of me

'Cause there was something in the way
That you said goodbye that day
That keeps me hopin' you'll be back again

Wherever you are tonight
You can look up into the sky
And see we're under the same moonlight
And I love you

Whoever is holding you
Well I hope that her aim is true
'Cause after all that we've been through
I still love you

Baby I still love you

And even though you're gone
You know my love still carries on
And I'm sending out a message to the stars
