stop and listen close to what i'm saying  
the time has come to let my feelings out  
i'm clouded up and best be on my way now  
for being here has really got me down

how long have i been down  
and out in this small town  
the road is calling me  
and i'm bound to run  
run away to tennessee

stop to pack my bags you know i've got 'em  
just a few little things to get me on my way  
don't need much don't got much i'm going  
so won't you stop and say a sweet goodbye to me
