I said, you can vote however you like
I said, you can vote however you like, yeah.

Obama on the left
McCain on the right
We can talk politics all night
And you can vote however you like
I said, you can vote however you like, yeah.

Democratic left
Republican right
November 4th we decide
And you can vote however you like
I said, you can vote however you like, yeah.

(McCain supporters)
McCain is the man
Fought for us in Vietnam
You know if anyone can
Help our country he can
Taxes droppin' low
Don't you know oils gonna flow
Drill it low
I'll show our economy will grow.

(Obama supporters)
I want Obama!

(McCain supporters)
Forget Obama!

(Obama supporters)
Stick wit McCain you gon' have some drama.

(McCain supporters)
More war in Iraq!

(Obama supporters)
Iran he will attack!

(McCain supporters)
Can't bring our troops back!

(Obama supporters)
We gotta vote!

Obama on the left
McCain on the right
We can talk politics all night
And you can vote however you like
I said, you can vote however you like, yeah.

Democratic left

November 4th we decide
And you can vote however you like
I said, you can vote however you like, yeah.

(McCain supporters)
McCain's the best candidate
With Palin as his runnin' mate
They'll fight for gun rights, pro life,
The conservative right
Our future is bright
Better economy in site
And all the world will feel our military might.

(Obama supporters)
But McCain and Bush are real close right
They vote alike and keep it tight
Obama's new, he's younger too
The Middle Class he will help you
He'll bring a change, he's got the brains
McCain and Bush are just the same
You are to blame, Iraq's a shame
4 more years would be insane.

(McCain supporters)
Lower your Taxes - you know Obama Won't!

(Obama supporters)
Protect the lower class - You know McCain won't!

(McCain supporters)
Have enough experience - you know that they don't!

(Obama supporters)
Stop global warming - you know that you won't!
I want Obama!

(McCain supporters)
Forget Obama!

(Obama supporters)
Stick with McCain you gon' have some drama!

(McCain supporters)
We need it!

(Obama supporters)
He'll bring it!

(McCain supporters)
He'll be it!

(Obama supporters)
You'll see it!

(McCain supporters)
We'll do it!

(Obama supporters)
Get to it!

(McCain supporters)
Let's move it!

(Obama supporters)
Do it!

I'm talkin' big pipe lines, and low gas prices
Below \$2.00 that would be nice!

Finding renewable ways that are here to stay
