Time has come oohhm!
For you and I to stand strong
Disregard the illusion of religion
They use it to keep us apart for so long
Don't constrict your mind from expansion Ohoooo!
Empower the state that we function
In serving the Lord of all creation
The one who can spare your souls from destruction
This road seems impossible, I know
But I know that we are able
To come together in order to break down this wall of
hatred between you & I

Chorus

We come to break down the walls of Babylon! x 4

Verse 2

They don't want to see us united Noooo!
They want to keep us separated
We don't don't need no more of your mind's pollution
no, no, no!
We don't need no more of your brainwash education,
heyyy!

Chorus

We come to break down the walls of Babylon! x 3

We come to, we a go, we come fi, heyyy!

Verse

In my heart and soul
I know we're here for a reason
Open the doors to your heart
And let that light shine through
Nothing is wrong with your machines no
We've been misjudged from the very beginning yeah,
yeah, yeah!
We've been invalidated, we've been violated, we've
been segregated but no more!

Chorus

We come to break down the walls of Babylon! x4

Break down

The walls

Of babylon
