This is how it go, and it go, perfect picture paintin  
Million dollar hold in the Cascade, in the shade

Chorus

[Big Boi]

The Goodie they call me, they wanted a player to bust  
to this  
I'm takin this thang, slow slow motion just can't rush  
with this  
We all in the family, what have we, I think we done  
found a freak hoe  
People all in my wallet hopin to frolic we gon' see hoe  
just hold up; you know my pockets swoll up  
I'ma let you suck my dick to meet your quota  
and you're fine, kinda shorter  
But I made this money before you got a Toyota and  
Explorer  
And when I'm off in the mall gettin fresh, I'm gon'  
ignore ya

Look at the earrings, the gold chains, the diamonds  
around my neckpiece  
The leather suede snake Elizabeth all up on my left B  
Hoe look at all these emeralds and these rubies and  
my gold teeth  
Thinkin a nigga spiritual tryin to build but you don't  
know me  
See there's more than meets the ear so we can ball  
that's if we chose to  
Move back I'm droppin the top and yes it's mine and  
gul it's new too

[Khujo]

Crushed velvet diamond cut, y'all get wreck wid dis
