God is able

God is able

God is able

He can do what he said he would do

I think about Daniel

in the lions den

didn't look too good, but Daniel put his trust in him

Shadrach Meshach and Abednego

When the flames grew hot

they just put their trust in God

And he would not let'em go

I think about Israel and the exodus

Pharoah sent his men

but God showed his faithfulness

If you think you're in a trial by fire

when the flames grow hot, you just put your trust in God

And he'll never let you go

He can lift you up when trials come your way

He can give you peace down in your soul

He will always do

He'll be there for you

Will you beleive him
