You did a job when you broke my heart
Left pieces scattered everywhere
Can't say I found every part
Not yet but I'm gettin' there

Every night when I close my eyes
I dreamed about a day so fair
A time when I'm over you
Not yet but I'm gettin' there

I'm gonna make it to the place
When I no longer see your face
Someday I'll convince myself I don't care
Not yet but I'm gettin' there
Not yet but I'm gettin' there

I know somewhere down the line
There's an answer to my prayer
Gonna get a new lease on life
Not yet but I'm gettin' there

Little by little, bit by bit
I'm on the road to repair
On the way to a brand new me
Not yet but I'm gettin' there

I'm gonna make it to the place
When I no longer see your face
Someday I'll convince myself I don't care
Not yet but I'm gettin' there
Not yet but I'm gettin' there

I'm gonna make it to the place
When I no longer see your face
Someday I'll convince myself I don't care
Not yet but I'm gettin' there
Not yet but I'm gettin' there
Not yet but I'm gettin' there
