(Rob Royer/Beth Hooker)

You better not fall for the rodeo man

If you want a little cottage with flowers growin' up the wall

Big pot cookin' when good friends come to call

Three little children, two of them planned

You better not fall for the rodeo man

But oh little sister what did you go and do

He's tough on the ponies and twice as hard on you

With a mouth full of chew and a pocket of sand

You go and fall in love with the rodeo man

So you ride that wind from town to town

Followin' that dream around

Hopin' when that cowboy falls

You'll catch him when he comes tumblin' down

I know he's got the stuff that'll bring out the woman in you

But you just gotta have that hard ridin' buck-a-roo

Well, just because he does it like nobody can

You go and fall in love with the rodeo man

You're gonna catch him when he comes tumblin' down

I know he's got the stuff that'll bring out the woman in you

But you just gotta have that hard ridin' buck-a-roo

And just because he does it like nobody can

You go and fall in love with the rodeo man

Yeah just because he does it like nobody can

You go and fall in love with the rodeo man

You go and fall in love with the rodeo man

Yeah you go and fall in love with the rodeo man
