(Steve Dean/Karen Stanley)

You think you know him
Then you don't
He says he'll be there
But then he won't
The more I learn
The less I understand about love

It goes back and forth
Up and down
Got my head spinnin' all around
The more I learn
The less I understand about love

My heart's been cared for
My heart's been used
It only makes me more confused
Just when I'm sure I've gotten wise
That's when I realize
The more I learn
The less I understand about love
It'll drive you crazy or make you sane
Moment by moment
It's a brand new game
The more I learn
The less I understand about love

My heart's been cared for
My heart's been used
It only makes me more confused
Just when I'm sure I've gotten wise
That's when I realize
The more I learn
The less I understand about love

The more I learn
The less I understand about love
