I can still hear mama sayin'  
Don't go too fast down that drive  
I can still hear that preacher preachin'  
Boy, you better change your way of life

I remember my first heartbreak  
When my best friend told me  
She's the type to walk away  
Oh, lookin' back now  
I wouldn't change a thing

I drove 90 down a one way street  
With the blue lights flashin after me  
And I spent a night behind bars  
And I loved a girl with everything I had  
Did all I could to make it last  
But she broke my heart  
You can't live this life  
Without a couple scars

Bossman said you're staying  
But I punched out at five 'o clock  
Yeah, I woke up the next morning  
Drove to work and I didn't have a job

Yeah, I drank too much that friday night  
And I found a guy and I picked a fight  
I got a memory of his left over my right eye

I drove 90 down a one way street  
With the blue lights flashin' after me  
And I spent a night behind bars  
And I loved a girl with everything I had  
Did all I could to make it last  
But she broke my heart  
You can't live this life  
Without a couple scars
