Take a little minute out of your day
To look at your world in a different way
Just a smile on your face
Can make it a better place
Spread a little love around

Give away the things that you don't need
Don't be afraid to plant the seed
Might seem small, but it counts
To make a big difference right now
Spread a little love around

It doesn't take much
It's simple enough
We all long for a human touch
When we gonna learn
The earth is gonna turn
But we can gain some common ground
If we only spread a little love around

If you wake up feelin' blue
Think about the ones worse off than you
Walk a mile in their shoes
Well, here's what you gotta do
Spread a little love around

It doesn't take much
It's simple enough
We all long for a human touch
When we gonna learn
The earth is gonna turn
But we can gain some common ground
If we only spread a little love around
