She knocks down my walls
She strips down my soul
She gets in my heart
And she takes control

It's a sweet surrender
A holy rush
And I find salvation
In every touch

She loves me like summer
And she moves me like thunder
And her kiss is the sunshine
That breaks through the soft rain
She's the blue sky I'm under
She loves me like summer

Wanna live in this moment
Wanna lay here all day
'Cause when she's in my arms
The world slips away
It's where I wanna stay

'Cause she loves me like summer
And she moves me like thunder
And her kiss is the sunshine
That breaks through the soft rain
She's the blue sky I'm under
She loves me like summer

And there ain't no way I'll ever let her go
And she knows I won't
There ain't no way I'll ever let her go

She's burned so deep down into my soul
And all I know
Is there ain't no way I'll ever let her go
She loves me like summer
