Echo echo echo
Echo echo echo

Can you imagine how it hurt to wake up to nothing?
To be lying there and not hear you return my call.
Cause it's not like you to leave without a kiss or
something.
Don't I... deserve 5 minutes after 4 years?

How could you... crush my heart to believe what they
said?
Why would you... leave with him? Who do you believe?
Who told you... that I'm no good and I don't deserve
you?
I'm the victim of a fallacy.

When your with him, I hope you hear my love echo.
It was easy for you, but it's hard for me to let go.
When he doesn't treat you like the way I did...
I hope you remember. You're gonna miss me.
You're gonna hear my echo...

So you walked away without giving me a reason.
You turned off your phone cause you want to be alone.
I'm missing beats from my heart (from my heart).
My hearts so cold... could last like a winter season.
Girl I... deserve 5 minutes after 4 years

I know you... don't really want this to be the end.
I swear it's not true... baby all the stories that you've
been told.
I dare you to turn your back. I know I made some
mistakes.
But I promise... things wont be the same.

When your with him, I hope you hear my love echo.
It was easy for you, but it's hard for me to let go.
When he doesn't treat you like the way I did...
I hope you remember. You're gonna miss me.
You're gonna hear my echo...

I know I messed up before.

I've realized what I've destroyed.
You know that I'm a better man.
And I'll do what I can.
I hope you understand
I'm just trying to figure out...
Why it's taking so long for you to come home.
Now the telephone rings and I picked up... but there's
nothing but air.

When your with him, I hope you hear my love echo.
It was easy for you, but it's hard for me to let go.
When he doesn't treat you like the way I did...
I hope you remember. You're gonna miss me.
You're gonna hear my echo...

When your with him, I hope you hear my love echo.
It was easy for you, but it's hard for me to let go.
When he doesn't treat you like the way I did...
I hope you remember. You're gonna miss me.
You're gonna feel my echo...
