[Verse 1]

I'm standing over the edge
And I don't wanna look down
'Cause the situations before
Have got me scared of heights

[Hook]

I'm getting weak in the knees, just trying lend on my feet
But it's a long way down, I'm used to pulling away
But now I can't hesitate or I will hit the ground
'Cause I don't have another drop zone

[Chorus:]

If I fall for you, will you be my parachute?
I gotta know that you will catch me
On the edge I'm about to, jump but before i do
You gotta promise that you'd catch me
Will you catch me if I fall (fall, fall, fall)

[Verse 2]

Don't leave me up here
When the storms starts to come this way
'Cause now the attitude
Is just too much for me

I was so weak in the knees, just trying lend on my feet
It was a long way down, I'm used to pulling away
But baby now I can't wait 'till I can hit the ground
'Cause well I know that you are my drop down

If I fall for you, will you be my parachute?
I gotta know that you will catch me
On the edge I'm about to jump, but before I do
You gotta promise that you'd catch me
Will you catch me if I fall (fall, fall, fall)

[Bridge]

I'm only trusting you if you're my parachute
I'm only trusting you if you're my parachute
To be my, to be my, to be my parachute

(I'm only trusting you if you're my parachute)
(I'm only trusting you if you're my parachute)

If I fall for you, will you be my parachute?
I gotta know that you will catch me
On the edge I'm about to jump, but before I do
You gotta promise that you'd catch me
Will you catch me if I fall (fall, fall, fall)
