I had a dream of you and me last night
Under the stars and moon, so bright
Lying together we hold each other tight

There's nothing better than being just with you
It's like a dream come true
Over and over
Again and again
I'll say
I love you

Now we're together
Never ever will I leave you
We're together
No one's gonna take you away from me
Cause you'll be
You will always be
The only one for me

When you told me you love me the way I do
Can't explain my feelings inside
I feel so alive since I had you by my side

There's nothing better than being just with you
It's like a dream come true
Over and over
Again and again
I say
I love you

Now we're together
Never ever will I leave you
We're together
No one's gonna take you away from me
Cause you'll be
You will always be
The only one for me

Never ever will I leave you
We're together
No one's gonna take you away from me

Cause you'll be
You will always be
The only one for me

Now we're together
Never ever will I leave you
Yeahh
We're together
No one's gonna take you away from me
Cause you'll be
You will always be
The only one for me

Oh oh oh...
Woohhh...
The only one for me
