All together now let's fall apart

Lips, are you ready to tremble  
Hands, are you ready to shake  
Eyes, get ready to cry  
Heart, get ready to break

Here she comes, she's gettin' closer  
Is everyone ready to start?  
Altogether now let's fall apart

Nerves, you'll be going to pieces  
Tears, you'll run down my face  
Head, you'll be spinning around  
It's time every one take your place

We're all in this thing together  
My body, my mind and my heart  
Altogether now let's fall apart

I couldn't keep her from leaving  
Though I tried, oh, Lord, how I tried  
But she fell in love with somebody new  
I guess that's him by her side

Here she comes now, she's gettin' closer  
Does everyone remember your part  
Altogether now let's fall apart  
Altogether now let's fall apart
