(Wayne Kemp - Mack Vickery)

I wonder who'll turn out the lights in your world tonight?

I wonder who'll turn out the lights in your world tonight?
Whose shoulder will your head be resting on
Will your hungry arms be reaching for someone you
feel you need
Will that need still be there when he's gone
As I reach for the switch that turns out my lights
I wonder who'll turn out the lights in your world tonight?

Has someone found a secret that I could never find
Is he touching that old switch that I've touched so many
times
Is he turnin' on the woman I could never satisfy
I wonder who'll turn out the lights in your world tonight?

--- Instrumental ---

Has someone found a secret that I could never find
Is he touching that old switch that I've touched so many
times
Is he turnin' on the woman I could never satisfy
I wonder who'll turn out the lights in your world tonight?

I wonder who'll turn out the lights in your world
tonight?...
