(John Schweers)

I cried a river washing your mem'ry away
And I finally made it least till you phoned me today
And I nearly hung up but teardrops destroyed my plan
You snap your fingers and just like that I'm back in your
hands.

You snap your fingers and just like that I'm back in your
hands
Startin' all over right back where I've always been
And I'm just beginnin' to learn some things never end
You snap your fingers and just like that I'm back in your
hands.

--- Instrumental ---

And I'm just beginnin' to learn some things never end
You snap your fingers and just like that I'm back in your
hands.
You snap your fingers and just like that I'm back in your
hands...
