We love like we are one
Sometimes it's twice as hard
When it feels like we're wrong

The morning comes to soon
I see a picture of you
And it dawns all so long

Just for a moment, I thought I had you in my arms
I've never quite get over you

You were the one
And now we're walking all alone
We'll always be the ones
Alone
We'll always be alone
Alone

It's faces pass me by
It's like starring at me
But they don't see me cry

I try to stay out late
This kind of life I own

Is never gonna change

Well I can't decide why dreams always break
Why dreams live or die for you

You were the one
And now we're walking all alone
We'll always be the ones
Alone
We'll always be alone
Alone
We'll always be the ones

I feel the cold gripping hand
It won't be long till I'm gone

We are so alone

The only ones who will always be alone

We'll always be alone

The only ones who will always be alone

We'll always be alone
