I don't care if the sun don't shine
As long as you will stay the night
And though my heart is black and blue
I will love you if you want me to

I have watched the mountains kiss the sky
I have seen the desert roll on by
And I have learned enough to know the truth
So I'll love you if you want me to
Yeah I'll love you if you want me to

No I can't explain the Northern lights
Like angels painting on the sky
Oh and when your day is finally through
I will love you if you want me to

In a hundred years when we're both gone
Oh the truth we shared will still live on
And now I know what I'm supposed to do
So I love you baby, through and through
I will hold you like you never knew,
Yeah I'll love you if you want me to
Oh I'll love you if you want me to
Yeah I'll love you if you want me to
