(Intro)

Yeah, Kid what up? Marcus. MK up on the beat. Ha  
But you already knew that, Lets go

I can make you smile, mona lisa style  
If you just give me one more chance  
Thought I could get through it, I'm about to lose it  
Cos without you my life's a mess  
Woah oh I never misled you, never mistaked you for a  
hoe  
I'm seeing things clearer getting in deeper  
Now I'm saying I told you so  
Oh I don't think I can do this alone.

I never wanna fall in love unless it's with you  
I never had someone who could keep me amused  
I always had my friends, that's all I need  
Well baby baby show me what you think I would miss  
If I ever decided to leave  
Eventually, you and me will honestly stand right here  
Saying I told you so

Been driving for a while that mona lisa smiles  
Got me thinking ways I never do  
I'm caught up in the drama and trying gets harder  
But I'm okay when I'm with you  
And all the haters saying that I'm not gonna make it  
It's funny cos eventually they'll lose.  
They'll grown an inch taller, realise they're smaller  
Finding better things to do  
Oh I never thought it's you I would lose

I never wanna fall in love unless it's with you  
I never had someone who could keep me amused  
I always had my friends, that's all I need  
Well baby baby show me what you think I would miss  
If I ever decided to leave  
Eventually, you and me will honestly stand right here  
Saying I told you so  
Woah oh  
Saying I told you so

(Rap)

My life aint turned out the way I planned it  
I'm constantly depressed, feel alone and abandoned  
Just yesterday I had dreams of leaving  
Now I'm all up on the track so my dreams aint leavin  
And uh uh I told you uh uh I told you  
I'm slowly blowin up man my shit no longer local  
I dropped green and mellow now my hits are gettin  
global  
I'm so one of a kind and now look at who they go to  
Ha, I know they want your dreams to shatter fast  
But if you don't throw stones, there's no shattered  
glass  
I'm one step ahead, I'm in a different class  
I make my own rules you can't even get a pass  
No lie women nothin but a nuisance  
Once they get your heart they just take and abuse it  
I just need a break so we make and produce it  
Writing lyrics all day the pain gets confusin  
But if you've got a dream you should never ever lose it  
Hold it all the way up to the day you make it true, Kid  
And when it's true go back to those who said that you  
can't do it  
Tell em' look now man I'm living off this music  
I hate to say I told you so

I never wanna fall in love unless it's with you  
I never had someone who could keep me amused  
I always had my friends, that's all I need  
Well baby baby show me what you think I would miss  
If I ever decided to leave  
Eventually, you and me will honestly stand right here  
Saying I told you so  
Woah oh  
Saying I told you so
