Every day you seem to fall away
Maybe it's time to say goodbye?
How would he know? You are not his tonight
You'd better hold on tight
I'm gonna take you for a ride
We'll have a crazy night

Who am I
To hold us both together for one more night?
Maybe it's because

Oh baby baby can't you see
Your life with him is good for me
I have you here when he's away
He doesn't know that you got laid
Oh baby baby please don't fight
I'll come back home tomorrow night
And we'll make sure we lock the door
So he won't hear that you want more tonight

Every night he'll call to shout and fight
I guess I'm not the only one
Who makes you scream when you were on the phone
It's hot when you're alone
They say that good things come in three's
He's not invited he can leave now

Who am I
To hold us both together for one more night?
Maybe it's because

Oh baby baby can't you see
Your life with him is good for me
I have you here when he's away
He doesn't know that you got laid
Oh baby baby please don't fight
I'll come back home tomorrow night
And we'll make sure we lock the door
So he won't hear that you want more tonight
