"Discover Me"

Visit "[Discover Me](#)" on MotoLyrics.com

Chorus:

It was meant to be
Just me and you
For Eternity
Just me and you
On the galaxy
Hope I find you
So discover me
For infinity
I just wanna love you
All the time babe x4

Verse:1

I just wanted you
I hope you wanted me
Insanely in love
Just discover me
I smile when I sleep
I smile when I think
I smile like a happy meal
Cause it's you I see
We go beyond the stars
Above the universe
Really really far
From this rugged earth
No one can't break us
Only make us
A bit stronger from every single hater
Loving you from the bottom all the way above
A love ain't about us 2 it's about 1
A heart ain't always gonna be 1 it's gonna be us to
Lets just add it together and lets just be thru.
Baby just know that I am (yours)
Shawty just know that u is (mine)
I'm loving because there is (Tomorrow)
In the happiest part of my (life)
My past is what didn't last so just let that go
Don't worry about the ones who didn't make here tho
My ex's are replaceable by them big O's
Only saw em as game of tic tac toe.
Don't get it twisted tho like a pretzel

I stayed guided by your heart like a stencil
Writing beauty pushing words with a pencil
That's something computer love cannot cancel

Chorus:

It was meant to be
Just me and you
For Eternity
Just me and you
On the galaxy
Hope I find you
So discover me
For infinity
I just wanna love you
All the time babe x4

Verse:2

Your the best I ever had let me break down
I just wanna love you baby let me take you out
Outer space to your place or to my place
Slow your roll girl this ain't a turtle race
Chicka chicka boom boom
Let me handle you (you)
In my room (room)
Making love on the sunset and wait for the moon
(Moon)
Never had a boy do it like I do (do)
Shawty has a clue (Clue)
Got that HD picture in her mind just me and you (you)
That's how we do
Speed things in my mind but take it slow
Hold my hand and don't wanna never let go
Red lipstick wearing fish nets no bra though
Shawty looking like the new Marilyn Monroe
She want me to her self every night
So no left turns I gotta do this right

Chorus:

It was meant to be
Just me and you
For Eternity
Just me and you
On the galaxy
Hope I find you
So discover me
For infinity
I just wanna love you
All the time babe x4
