Don't feel the need to get to the bottom of  
The love light in your eyes  
As the leaves fall prey to autumn  
I don't ask why

Don't give my feelings the third degree  
No need to think twice  
As long as I've got you for me  
I don't ask why  
(Don't ask, don't ask why)  
I don't ask why

What good would it do me knowing  
How it all works anyway?  
My hearts got it's own game going  
I'm just happy to play

It's said in wisdom there's so much grief  
Why try?  
If the answer brings no relief  
It's better to laugh or cry

Since worrying don't change a thing  
I don't ask why

What good would it do me knowing  
How it all works from behind?  
My souls got it's own dream going  
I'm just far and blind

It's said in wisdom there's so much grief  
Like a child?  
If the answer brings no relief  
It's better to laugh or cry

So if we chased the stars and caught 'em  
Now would they still shine?  
Don't feel the need to get to the bottom of  
(Don't ask, don't ask why)

The love light in your eyes  
(Don't ask why)

No, I don't ask why  
(Don't ask, don't ask why)
