Thinking out loud is all I'm doing  
Trying to raise my love above these ruins  
With each song, I kick it around  
Thinking, my love I can tell

There's a load on your mind  
If we poured ourselves  
Like this bottle of wine and let it flow  
We'll figure it out, thinking out loud

But it's hard to think with all the racket  
Going on inside our heads  
All this worrying is getting us nowhere  
Let's go somewhere instead

Just thinking out loud  
Is it all we're good for?  
Trying to raise our love  
But always falling short

Heaven knows what it's all about  
Thinking out loud  
With each song, I kick it around  
Thinking out loud
