I'm sorry baby I've been gone  
You've been waiting for me, I've been doing you wrong  
Cuz I got a lot of luv to spread around  
Now I'm back for you baby safe and sound

Chorus:  
Oh but she said:  
Don't call me baby, baby  
Cuz I ain't yours no more  
You been fuckin around  
You been with that whore  
An' I'll hold your hand maybe  
But I don't want your heart  
An' I gave you everything  
And now your tearing us apart

But you're a girl you don't understand  
When you're not around I get sick of my hand  
Oh so I went lookin around, gotta feel that sting  
But I swear to you baby it didn't mean a thing
