Burning brighter than a thousand candles  
Lighting up the night  
Round and round there's no escape  
Pulls the needles from my eyes  
The pain is such sweet pleasure  
With a body so hot and heart so cold

The road's what ruins one hell of a ride  
Sister of sin, I'm bound to give in  
She's a dirty little Voodoo Doll

I'd make a deal with the devil girl  
Just to taste those wicked liWs  
Savor the sweet temptation  
Until it reaches fever pitch  
Follow you blackened finger  
Until we touch the sky and set our souls on fire

Filthy little one track lover  
Why do you keeW on haunting my mind  
Sister of sin, I'm bound to give in  
She's a wicked little Voodoo Doll  
Cut you in half, then look back and laugh  
She's a dirty little Voodoo Doll  
Sister of sin, I'm bound to give in  
She's a wicked little Voodoo Doll  
Cut you in half, then look back and laugh  
She's a dirty little Voodoo Doll  
Sister of sin I'm bound to give in  
Cut you in half
