Once you've seen it you won't want to go away
I tell you as a girl of the world
When you feel it, you'll make us wanna stay
Inside this group of laughter and truth
I'll take your hand, you'll love my past
Cause you'll know that I can see things your way
We share this land, we share this task and I say

See it as another
Let me go my way
Who knows what awaits us ---
I might follow you one day

Now you've freed them
Beauty's in the open mind
I tell you as a girl of the world
When you feel it, your words will touch mine
So take me to a world of your love
I'll try your world, I won't be scared
Cause I know that you will try mine too
I'll teach my child, believe in this
And we'll start something true

See it as another
Let me go my way
Who knows what awaits us ---
I might follow you one day

Let me go my way
Let me go my way
Let me go my way
Won't you let me go my way?
