I wanna climb accross the mountains  
Take me to the place that I saw in my dreams  
I wanna brave the sea they drowned in  
Take me to where no one else has reached

What's a dream  
What's a dream  
Without another hand?

(chorus)

Together, together, we'll see the world, the wild, we'll  
see the wonders of life  
Together, together, we'll see the world, the wild, we'll  
see the wonders...

I wanna lift my spirits  
Lift them to a higher consciousness  
I wanna dance to passionate lyrics  
Feeling songs of sacred words and holiness

(chorus)

Together, together, we'll see the world, the wild, we'll  
see the wonders of life  
Together, together, we'll see the world, the wild, we'll  
see the wonders...

Hikin' by the moonlight  
Learnin' to love the land  
Stumblin' on the essence  
Of the life in children's hands

We are all amidst our journeys  
Journeys to our calm  
And in the hearts between us  
Lies the strength to move us on

(chorus)
