Hold your breath  
Breaking before the fall  
Did you lay it on the line this time?  
Slow way down, my new friend  
Because you're dancing with my mind

Can you feel it now?  
More than ever baby  
I can feel it now  
More than you'd know  
Scream a little bit louder  
Because I can't touch you any longer

Bite your tongue,  
Your tongue has bad behavior  
Can you feel it in your teeth and gums?  
Dressed up, numbed up,  
The feeling is great  
But the time here with you is mutual  
Well who's the bigger man now?  
And I tap my foot like a gentleman

Can you feel it now?  
More than ever baby  
I can feel it now  
More than you'd know  
Scream a little bit louder  
Because I can't touch you any longer

Because everything goes on and on

Can you feel it now?  
More than ever baby  
I can feel it now  
More than you'd know  
Scream a little bit louder  
Because I can't touch you any longer
