Hey you, this terrible nightmare
We've got something to say
Let's be honest and complain
Dare you, who threw my name away
Forgiveness will never be the same

Goodbye she said on the whole way home
Yeah I don't want to
Goodbye she said and you couldn't say no
Cuz everything's fine
And baby this is real
And I just want to feel this way forever

Follow you,
Into the deepest darkest place
Yeah you know how we are
Dance with you
I love how you display your affection
When you saw my face

Goodbye she said on the whole way home
Yeah I don't want to
Goodbye she said and you couldn't say no
Cuz everything's fine
And baby this is real
And I just want to feel this way forever

What do you say about being lonely?
Not quite sure but I'm pretty scared
Cold shoulders, no second chances
On my own

I think we've been through this before

This time like last summer
She brought on the fever
Taking me all the way

Goodbye she said on the whole way home
Yeah I don't want to
Goodbye she said and you couldn't say no

Everything that I could give
I can't go back, can't go back
All that life I don't live for you
I can't go back again
So stop and listen,
I made my decision and I can't go back for you
