Summertime  
I thought you never knew  
It was mine  
I didn't know  
This was done  
But it tastes so good  
It was time

This engines lost control  
I was flying towards the burning sun  
And about that time she looked at me and said,

"there's something going on"

If we were falling from the sky  
Would we apologize for lost time?  
If we were falling from the sky  
Never give it back

Would you take me back?

Taken back  
Define my state of mind  
Problems hide  
Yes, I know  
Winters chill  
And it feels so good

"there's something going on"  
"attention, attention, there's something going on"

If we were falling from the sky  
Would we apologize for lost time?  
If we were falling from the sky  
Never give it back

Tell me what's wrong  
The doctors been out for weeks  
Tell me what's wrong with your life  
Same old thing again

If we were falling from the sky

Would we apologize for lost time?  
If we were falling from the sky  
Never give it back

Would you ever take me back  
If we were falling from the sky, would we ever know?

This engines lost control  
And oh no, I was flying towards the burning sun  
And about that time she looked at me and said,

"it was time"  
I was flying towards the burning sun
