Lights out and it's raining now  
Thunder shakes the ground  
This is when we feel alive  
Don't you walk away from me  
Let me tell you what we need  
Make the Plans  
Grab the car  
Let's take this for a ride

Set the scene  
Let the actor bleed  
And everything is gonna be OK with me  
And we're starving  
To feel more alive

When our fingers touch  
The world outside your back door  
Bring it back just like before  
With fireworks... yeah... let's light some more

When our fingers touch  
Everything black switch to bright  
Bring it back just one last time  
Your handsfree's dull you ask for mine

Break out  
Where you want to be  
Stereo sing to me  
This is when we feel alive  
Turn your back on trust now  
This is what you want girl  
Everytime you were dancing on your own  
Thinking you were done

Set the scene  
Let the actor bleed  
And everything is gonna be ok with me  
And we're starving  
To feel more alive

When our fingers touch  
The world outside your back door

Bring it back just like before  
With fireworks... yeah... let's light some more

When our fingers touch  
Everything black switch to bright  
Bring it back just one last time  
Your handsfree's dull you ask for mine

(Fingers touch)  
(Fingers touch)

When our fingers touch  
The world outside your back door  
Bring it back just like before

When our fingers touch  
Everything black switch to bright  
Bring it back just one last time  
Your handsfree's dull you ask for mine
