Called to follow we're cured
we're saved
but we're slain
we fade away and you saw it so make sure you don't
change

Now we've fallen, with fear
we pay
we fade away
lost a mind
saved the day
found a way to make sure you don't change

Your insane
scream again
before its too late
sleep with the lights on

Its time to follow
we'll play a game
you'll be slain
don't fade away
adore it and make sure you don't change

Now you're fallen
your face
I'll cover
to keep it safe
before I fade away I'll make sure you don't change
