I've been skipping so much classes  
For a song that made me strong  
I was singing "Stage of Joy"  
In my bathroom all day long  
And my frinds were looking for me  
To spend time to they, just waiting  
It was my high school life yesterday.

That's so nice  
Hey, you, stop looking at me, it's not  
Over can't you see?  
Life some kind of High School  
Hey you stop crying for me, we're  
Still party don't you see?  
Life's some kind of high school(x3)  
  
Have I told you about my girlfriend?  
She was like a superstar.  
She was singing all day long in my  
First vintage car.  
Was she best song about it is tellin'  
Her how she crossed my was  
That was my best high school day.

That's so nice  
Hey, you, stop looking at me,  
it's not Over can't you see?  
Life some kind of High School  
Hey you stop crying for me,  
We're still party don't you see?  
Life's some kind of high school(x3)

Even if I try, I can't tell you why she cries  
But I'm pretty sure, her teardrops  
Been of jpy pf endless love

Hey silly don't be blind, I'm not  
Leaving you behind .  
You'll always be in my heart  
We have always to remembre what  
Got expect together  
The sweet for notes

Oh, let's jsut hope of better.  
The step into live together  
Just you and me.

That's so nice  
Hey, you, stop looking at me, it's not  
Over can't you see?  
Life some kind of High School  
Hey you stop crying for me,  
We're still party don't you see?  
Life's some kind of high school(x3)
