Uh, what what, yo yo P 5 D uncut  
Check it out, yo yo, S P uncut  
Yo yo, what P 5 D uncut  
Yeah yeah it's that Philly shit  
Yo yo, check it out, yo yo

You don't see us, but we see you  
You stuck on sleep, get on your P's and Q's  
'Cuz you will get crept, wit no discrept  
You know the rap, we keep the flows in check

You don't see us, but we see you  
You stuck on sleep, get on your P's and Q's  
'Cuz you will get crept, wit no discrept  
You know the rap, we keep the flows in check

Mesmerizing, state of the art Caffeine  
It's over head like omniverse screen  
I'm not the average savage that curse queens  
I'm something from his worst dreams  
First we handling first things, I'm subsurface un-seen  
Grat'll hold planet by purse strings  
MC's are earthlings, not built to hurt things  
Speakin' the words of weaklings, nothin' but sweet  
things

Man each world, it ain't no time to recline  
Act up, get clapped up, my mind is the nine  
Shine like jewels that spark, swimmin' wit sharks  
Never caught speakin' to NARC's, that's weak in the  
parks  
I'm the type to sit back and analyze the prize  
Grip it up and flee the scene wit a different disguise  
Take a detour, I be all that I can be whore  
Talkin' to this bitch life, had to make her my wife  
Live twice, got seven more lives to live  
I'm all out, takin' things to the fullest extent  
Help me get it down and we can split one-hundred  
percent  
Run a rapper through a maze like a experiment  
Word up, you know the legendary roots crew, yo

You don't see us, but we see you  
You stuck on sleep, get on your P's and Q's  
'Cuz you will get crept, wit no discrept  
You know the rap, we keep the flows in check

You don't see us, but we see you  
You stuck on sleep, get on your P's and Q's  
'Cuz you will get crept, wit no discrept  
You know the rap, we keep the flows in check

The raw dice rise like a creature from out the swamp  
Wit my blood-thirsty clergy that's on the hunt for conk  
Who pumps your heart, I made you wanna rhyme from  
the start  
You should be more alert, then you wouldn't get hurt  
Get off your horse and on your P's and beware  
Of images you seein', did deceiving, you're scared  
And even more shook up than the scenes that's near  
I'm dice raw, sting the inside of your mouth like a cold  
sore  
Who wanna piece, well it's round one, let's begin  
I got a gun that's don't bust, it just suck niggaz in  
I got shit that'll have you beggin' me to shoot ya  
I'm the professor, you rock a dunce cap, go get a tutor

Yo, okay computer, radiohead's knock to the  
Future shock like Kurtis, at your service  
None other than, the fifth government playin' the cut  
again  
Y'all clueless to what the fuck is up again  
Yo, hard times and sufferin'  
What, my peoples in the crevices strugglin'  
'Nuff of them ? Untie? Soldier thespian  
But I'm from the next e-on, supreme being that's  
unseen for MC'n

You don't see us, but we see you  
You stuck on sleep, get on your P's and Q's  
'Cuz you will get crept, wit no discrept  
You know the rap, we keep the flows in check

You don't see us, but we see you  
You stuck on sleep, get on your P's and Q's  
'Cuz you will get crept, wit no discrept  
You know the rap, we keep the flows in check

Yo, they all around me 'round me  
On my head, they got a bounty  
I'm tryin' to get this bell up so I can flee ythe county  
Triple-six, come in my mix, flood it wit tricks

I'm sharper than rough spoons for icepicks  
Niggaz price bricks 'till dawn, if the money is long  
Cats who play strong will inhale, then go play bong  
You wrong son, if you thought I wasn't droppin' a ton  
Sit and think about the way I wanna tally a sum

Aiyyo I sneakfully snuck up from behind and got you  
From over there in them bushes, I chilled and watched  
you  
Dancin all dolly as you pussy for them folly  
I knock you out wit one punch from me you been allied  
I float like hovercrafts and sting like vaccinations  
When my name said out loud, you'll lose your  
concentration

Dice Raw, DICE RAW, you wanna take it  
Otherwise, fuck you gon' do?  
That's what I thought, nada, nothing, caput, zero  
Rough as sandpaper but still smooth as a tiptoe  
RAW's takin' over, baby don't tell me you ain't know  
A lot of kids can rap but you fuckin' wit the pros  
Now I'm sayin', y'all know the legendary Roots crew, it's  
like

You don't see us, but we see you  
You stuck on sleep, get on your P's and Q's  
'Cuz you will get crept, wit no discrept  
You know the rap, we keep the flows in check

You don't see us, but we see you  
You stuck on sleep, get on your P's and Q's  
'Cuz you will get crept, wit no discrept  
You know the rap, we keep the flows in check

You don't see us, but we see you  
You stuck on sleep, get on you P's and Q's  
'Cuz you will get crept, wit no discrept  
You know the rap, we keep the flows in check
