Yesterday I saw a B-girl crying, yesterday I saw a B-girl
crying
I walked up and asked what's wrong
She told me that the radio's been playing the same
song all day long
So I told her I got something you've been waiting for
I got something you've been waiting for

Yesterday I saw a B-girl crying, I walked up and asked
what's wrong
She told me that the radio's been playing the same
song all day long
So get your glass lift it up in the toast position
We getting paper like John Travolta get it

?Cause we focused with it, we supposed to get it
You know me and my whole squad, we so committed
We not the kids cooling out on the sofa with it
We about to dominate the globe like Oprah did it
We getting paper like John Travolta, nigga

Well, I'm a downtown shooter, who that?
The crown ruler is back, he kind of grew into the shape
of a mack
Look how I do it, yo, I'm taking you back
This how you rise down to the foundation, how sacred
is that?

I'm from the number one place on the map
The generational gap with yet another sensational
track
And we don't stress for nothing, I just press the button
It's as simple as just making it hap'

To all the frauds, stop faking, relax and to the broads if
you caking
Then clap, then shake it without breaking your back
I know the world been waiting for that
You been aching for that ?cause what they playing on
the station is wack

And I'm a legend in the flesh that dress to impress

The best is that which I accept and nothing less
My stacks is grotesque my squad so fresh
You know it? Black Thought and your boy the broquest
but

Yesterday I saw a B-girl crying, I walked up and asked
what's wrong
She told me that the radio's been playing the same
song all day long
So get your glass lift it up in the toast position
We getting paper like John Travolta get it

?Cause we focused with it, we supposed to get it
You know me and my whole squad, we so committed
We not the kids cooling out on the sofa with it
We about to dominate the globe like Oprah did it
We getting paper like John Travolta, nigga

Hip hop ain't dead ?cause the pulse is in us
I got the Everclear flow, they mimosa with it
We are the hope of the culture, they supposed to listen
And I'm supposed to pivot like I'm a forward in the
league

I'm Oden with it
Yet, don't owe them niggas nothing but potent lyrics
But if you ain't got the dance, they revoke your
spinning
So good rappers ain't eating they Olsen twining

But I'm so committed they have grown familiar
With the counterfeit hitters they so-so with it, but they
are Sosa with it
They Mark McGuire with the written, I'm Rodriguez
On the road to riches, this is the fork I'm hitting

This is the trial and error era, no co-defendant
I push The Seed every time like I'm Cody with it
I said the one-hit wonders pneumonia to us
I don't know you niggas, hit the road, my nigga

Yesterday I saw a B-girl crying, I walked up and asked
what's wrong
She told me that the radio's been playing the same
song all day long
So get your glass lift it up in the toast position
We getting paper like John Travolta get it

?Cause we focused with it, we supposed to get it
You know me and my whole squad, we so committed
We not the kids cooling out on the sofa with it

We about to dominate the globe like Oprah did it
We getting paper like John Travolta, nigga

Where my grimy figures at? Look lively addressing the
captain
Show me where your first impression is at
And where your dedication to the true profession is at
How you laugh, answer me, what kind of question is
that?

I'll show you where my rare essence is at, the
adolescence of rap
The real muscle in the message of that
My name trouble I'm a blessing to rap
And you can check my stats ?cause worldwide they
attesting to that

So nigga, listen you can probably learn a lesson
perhaps
How I'm like Bobby DeNiro, Joe Pesci and them cats
Am I the unsung hero?
Oh yes, if you asking anybody that's aware of the
classics

They'll tell you I'm a legend in the flesh that dress to
impress
The best is that which I accept and nothing less
My stacks is grotesque, my squad, so fresh
You know it's Black Thought and your boy the broquest
but

Yesterday I saw a B-girl crying, I walked up and asked
what's wrong
She told me that the radio's been playing the same
song all day long
So get your glass lift it up in the toast position
We getting paper like John Travolta get it

?Cause we focused with it, we supposed to get it
You know me and my whole squad, we so committed
We not the kids cooling out on the sofa with it
We about to dominate the globe like Oprah did it
So let?s go
