Beware of the nighttime people  
Who's rocking where?  
Cold black bodies with blood-red eyes  
Dead souls everywhere  
Sudden screeches in the air

It's gonna be wild tonight  
Flesh to flesh and bite to bite  
It's gonna be wild tonight  
I can feel it coming  
It's gonna be wild tonight

Moving forward in slow motion  
Dancing like a part-time killer  
They've got no class, bad manners  
Acting like a stone Godzilla  
But baby, they're full-time killers

It's gonna be wild tonight  
Flesh to flesh and bite to bite  
It's gonna be wild tonight  
I can feel it coming  
It's gonna be wild tonight

(Tonight, tonight) Could be the strangest night  
(Tonight, tonight) There's another appetite  
(Tonight, tonight) I said we've gotta run  
Gotta hide

(Flesh, live brains...)

Evil smiles on graveyard faces  
All dressed to kill  
They've got no mercy and no limitations  
They're finding the perfect thrill  
It looks like they probably will

It's gonna be wild tonight  
Flesh to flesh and bite to bite  
It's gonna be wild tonight  
I can feel it coming  
It's gonna be wild

It's gonna be wild tonight  
Flesh to flesh and bite to bite  
It's gonna be wild tonight  
I can feel it, I can feel it

It's gonna be wild tonight  
Flesh to flesh and bite to bite  
Flesh to flesh and bite to bite  
Flesh to flesh and bite to bite  
Flesh to flesh and bite to bite  
Flesh to flesh and bite to bite  
Flesh to flesh and bite to bite  
Flesh to flesh and bite to bite
