### **"Fever"**

Visit "[Fever](#)" on [MotoLyrics.com](https://MotoLyrics.com)

There is no even understanding what I'm feeling  
Don't recognize myself just tell me what the deal is  
Butterflying and I'm breezy  
Losing my mind with the fever  
Just need to know that you'll be there (be there, be there)  
Losing my mind with the fever

You make me believe it  
You make me believe it (leave it)

There is no even understanding what I'm feeling  
Don't recognize myself just tell me what the deal is  
Butterflying and I'm breezy (yes)  
Losing my mind with the fever  
Just need to know that you'll be there (be there, be there)  
I'm losing my mind with the fever

You make me believe it (believe it)  
You make me believe it  
(yeah)

Just need to know that you'll be there (be there, be there)  
Losing my mind with the fever

You make me believe it (believe it)
