VERSE 1:

when i'm walking through the day i see
life takin' it's way everywhere
streets are crowded, people outside
everybody tries to do their best in life
keeping up with friends and talk about
what makes their soul do well
in a time where things do move so fast
we need to fill our hearts if only with a smile

CHORUS:

i feel the power when love and harmony unite
only with a smile
i feel the power when love is guiding me my way

VERSE 2:

especially in spring time, snow is melting and green is
back
it's a fresh wind blowing, the smell of new life
it's electrifying all the energy is suddenly back
and only with a smile

CHORUS:

i feel the power when love and harmony unite
only with a smile
i feel the power when love is guiding me my way

2x CHORUS.....
