VERSE 1:

there is a time when the light shines so bright
the water is clear also winter is near
the season returns where the trees are colored wild
slowly the the days getting shorter and it says

BRIDGE:

fall is back the time of romance, love, melancholy
that turns your head way up

CHORUS:

fall in love, fall in love again
spring and summer's gone and then
it is fall in love again
fall in love, fall in love again
live is changing getting slow
turning in a different flow
fall in love

VERSE 2:

now you recieve what in spring you believed
the seed in the ground became a tree and you found
love on the way even though it might not stay
moments in time keep your mind on the line, 'cause

BRIDGE:

fall is back the time of romance, love, melancholy
that turns your head way up

CHORUS:

fall in love, fall in love again
spring and summer's gone and then
it is fall in love again
fall in love, fall in love again
live is changing getting slow
turning in a different flow
fall in love

1x CHORUS.....
